How this estimate was built

Your estimate starts from a real market price for this trailer type and size, applies depreciation for age, then adjusts for condition based on your photos.

Depreciation (1 yr, 20.0%)	-\$950

Estimated market value (confidence: Moderate)	\$3,800-\$4,150

Photo condition analysis

Overall condition: **Excellent** · Images appear to be clean studio/product-style renders with consistent lighting and neutral background; while clear, they lack close-up or environmental context needed to fully verify real-world wear or hidden defects.

OBSERVATIONS

- Studio-style renders/photos showing clean, unmarked wood decking
- Frame and fenders show uniform black finish with no visible rust or scratches
- Wheels and tires appear new with no visible wear or damage
- No load, dirt, or usage wear visible on any surface
- All four angles (front, side, rear) provided but appear to be product renders rather than in-use photos

RAISED THE ESTIMATE

- Deck boards appear new and uniformly colored with no staining or damage
- Paint/coating on frame and fenders is even and unblemished
- Tires and wheels show no wear, cracking, or corrosion
- Lighting, coupler, and hardware appear intact and undamaged

LOWERED THE ESTIMATE

- Lack of real-world context (ground, environment) limits ability to confirm actual wear
- No close-up shots of welds, undercarriage, axles, or coupler mechanism for detailed wear assessment

FLAGS

- Images resemble manufacturer/product renders rather than user-submitted photos of an actual in-use trailer
- No undercarriage or close-up hardware views provided
